

Kalama, Washington

Population and Housing Narrative Profile

2009-2013 American Community Survey 5-Year Estimates

While the ACS produces sample-based population group and housing estimates used in this report, the Census Bureau's Population Estimates Program produces and disseminates official estimates of the population for the nation, states, counties, cities and towns, as well as estimates of housing units for states and counties. For more information see:

<http://www.census.gov/popest/>

Note that for small geographic areas, the sample used for the Narrative Profile may be small as well. Users are encouraged to examine the detailed tables on [American FactFinder](#) that are associated with the Narrative Profile text. These tables provide additional information on sampling variability associated with the estimates in this report.

► Households and Families

In 2009-2013 there were 1,000 households in Kalama, Washington. The average household size was 2.6 people.

Families made up 61 percent of the households in Kalama, Washington. This figure includes both married-couple families (44 percent) and other families (18 percent). Explanation of Symbols:

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
